About me

Mid-senior **Full Stack software** developer with ~5 years experience with web development, seeking to contribute effectively in relevant projects. My main stack involves Nuxt SPA/SSG applications and GraphQL/REST APIs with Node.js.

Skills

- C# | JavaScript | TypeScript | Node | Express | React | Vue | Nuxt | Git | MongoDB | Postgres | SQL Server | Prisma | Entity Framework
- Apollo Server/Client | GraphQL | MySQL | Firestore | Elasticsearch | HTML | CSS | jQuery | CI/CD | Jest | POO | Frontend | Backend
- Full-Stack | Linux and CLI | Cloudflare | PHP with Codeigniter | Retool (low-code) | Portuguese, English – Professional proficiency.

Experiences

Full Stack Developer (remote)

Lar Cooperativa Agroindustrial

07/2023 - Current

- I developed **REST APIs** using technologies: **C#, SQL Server, Docker e Entity Framework**.
- I developed **web applications** using technologies: **React.js, Typescript e, Docker**.
- I worked on modernization of legacy software.

Co-Founder & CTO & Full Stack Developer (remote)

Natiz

06/2021 - Current

- I worked on all the demands related to the development of systems, from the gathering of requirements to the implementation of web solutions..
- I designed and developed **GraphQL** and **REST APIs** using technologies: **Node.js, Express, MongoDB, Postgres, Prisma, GraphQL, Typescript**.
- I developed **web applications** using technologies: **React.js, Nuxt, Typescript**.
- I set up project **infrastructure** on **Google Cloud**.
- I created Continuous Integration pipelines on **Google Cloud Build**.
- I created a page for admins using **Retool (low code)**.

Backend developer (remote)

People Club

10/2020 - 06/2021

- Assisted in the development and maintenance of **GraphQL** and **REST APIs** using microservice frameworks with **Apollo Federation**.
- I worked with technologies: **Node.js, Typescript, GraphQL, MySQL, Firestore, MongoDB, ElasticSearch** and **Redis**.
- Developed unit tests and bug fixes to improve software quality and performance.
- Participated in **code reviews** to ensure adherence to coding best practices and standards.

Full Stack Developer

Trend Mobile

04/2019 - 09/2020

- Participated in activities related to the development of various websites, such as: requirements analysis, data modeling, website development, testing and maintenance.
- I worked with technologies: **HTML, CSS, Javascript, PHP, CodeIgniter, SQL, jQuery**.

Education

Technologist

Universidade Tecnológica Federal do Paraná (UTFPR)

C. Procópio, PR, BRA 02/2016 - 02/2021

- Technology in Systems Analysis and Development

Others

- **Congresso Latino-americano de Software Livre e Tecnologias Abertas - Latinoware**. I participated as a speaker in 2022 (GraphQL Modules é a sua próxima escolha - GraphQL Modules is your next choice!).
